

Eric W. Sydor

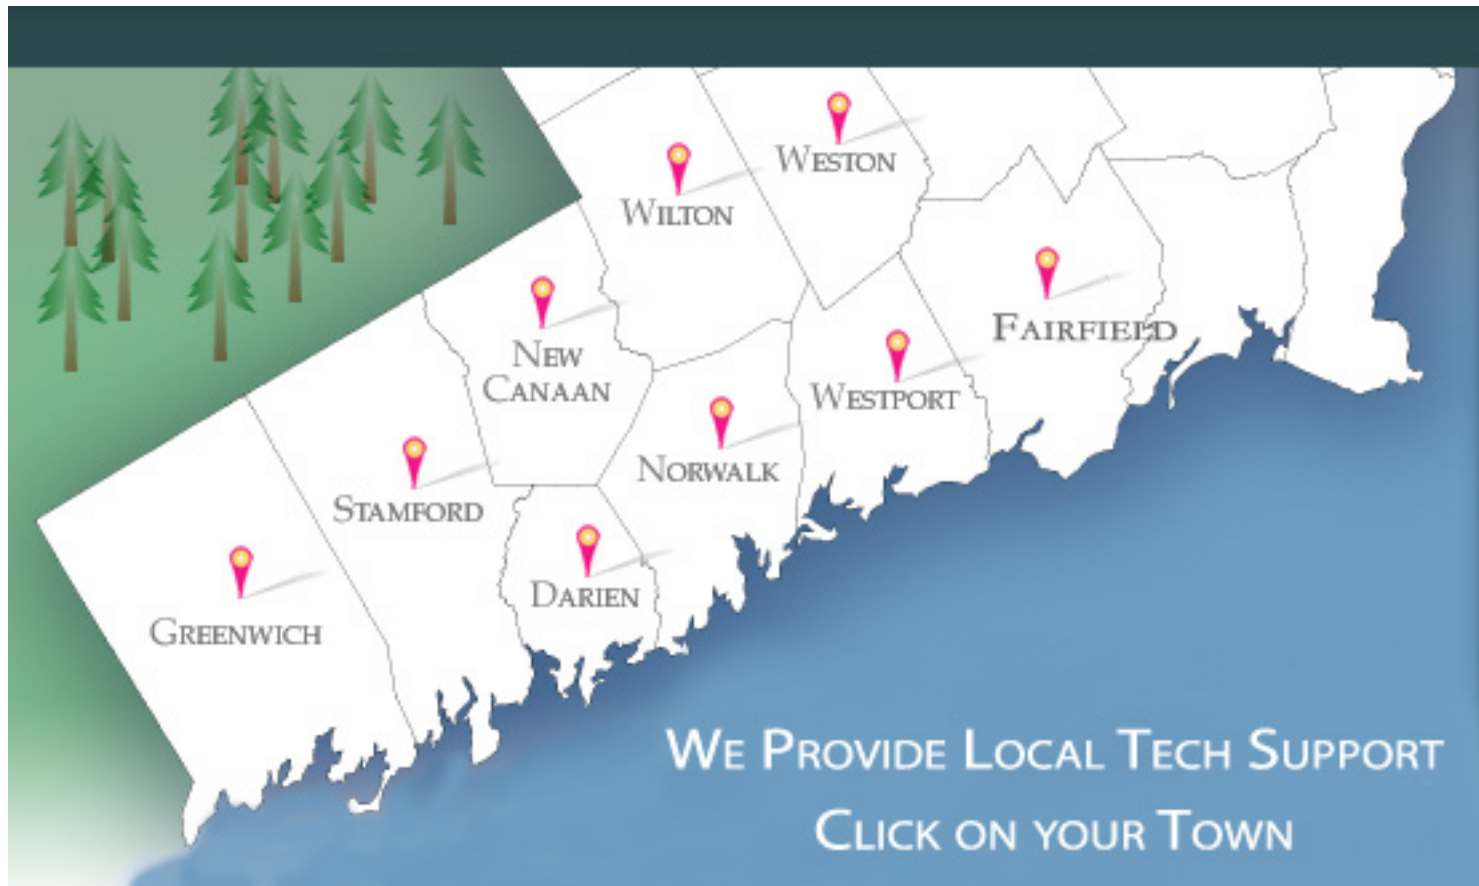

Welcome to ESydor Tech - We are proud to provide high quality, fast, and friendly computer support in the lower Fairfield County area. While we can't promise to beat those big box stores tech help desks, we feel we more than make up for that with superior service, unrivaled turn around time, and personal service. Many of our clients have grown to expect and look forward to our door to door service, and

ESydor Tech can come directly to your home or small business to diagnose and repair your computing problems. Our goal is to provide simple, cost effective solutions to all of your technology issues. Call us the next time you hesitate when dropping off your computer to some big store help desk (most people don't like having a team of strangers having access to your data). Most times we can repair things considerably faster, and help you make better decisions.

ESydor Tech brings over 20 years of expertise in supporting large computer networks to the small office and home user.
